

## Competition Instructions

The Asia Spelling Cup 2018 final competition will be held on August 18, 2018. To qualify for the final competition, you must compete in an online competition. The time of qualification is from June 11st through July 27th

Step 1: Download Qooco Talk Game App at [asiaspell.com](http://asiaspell.com) or [qooco.com/th/edu/download](http://qooco.com/th/edu/download)

Step 2: Trusted Enterprise Developer (for iOS useronly)

Step 3: Register for an Account – ensure to add your e-mail address as your username

Step 4: Complete the user information in the setting. Please include your e-mail address and mobile phone number

Step 5: Fill in the license code and start the course in the Qooco Talk Game App

Step 6: Compete in the qualification Period (June 11st - July 27th)

\*\* The final ranking will depend on how well you study the course, such as your learning duration, your spell points and word speak points. At the end all those will be recorded and calculated by the powerful app.

7. Tap on **"Submit"**
8. Study the course in the Qooco Talk app after you login with your own account

## 6 Introduction about the Course

The online course (2018 Asia Spelling Cup) has been designed for the competition, including 6 levels, each level with 2 packages. Each package contains 17 topics in Level 1-3, and 21 topics in Level 4-6. The exercises of each topic mainly involve word listening, word speaking, and word spelling. One who wants to participate in the competition should first study this online course from the beginning to the end as much as possible

## How the Final Score is Calculated?

Final Score = (A)Word Speak / Points (30%) + (B)Learning Duration (30%) + (C)Word Spell / Points (40%)

$$(A) \text{ Word Speak / Points} = \frac{\text{The word speak points that user gained}}{\text{The word speak points that the top user gained}} \times 100 \times 30\%$$

$$(B) \text{ Learning Duration} = \frac{\text{The learning duration that user learned}}{\text{The learning duration that the top user learned}} \times 100 \times 30\%$$

$$(C) \text{ Word Spell / Points} = \frac{\text{The word spell points that user gained}}{\text{The word spell points that the top user gained}} \times 100 \times 40\%$$

\* Both word speak and spell points are not available in the user's app, but they are monitored by the official data base

\*\* Instead, you can check the attempts and study time of Word Speak and Spell in the skill distribution from the insights user in the app menu

\*\*\* Besides, you can also check the learning duration of this course from the insights user in the app menu

\*\*\*\* According to the calculation above, on the condition of a certain period of study time, one should spend much more time on word speaking and spelling exercises (repeat /say/ spell the word) in the online lessons in order to get higher scores

(Please refer to the video in the official website [www.asiaspell.com](http://www.asiaspell.com) for detailed information.)
